WELCOME

Our Mission

The Mission of Arts In Motion is to enrich the lives of our students through exploration of the arts and through artistic expression. We cultivate children's individual creativity through music, visual art, drama, and dance. We maintain a high quality program with a trained staff that teaches to the individual.

About Us

Arts In Motion is a preferred arts program for the gracious side of life. We present our curriculum with lively and enjoyable activities that enlightens all individuals. Our fun is designed to develop students with virtues of life: courteous behaviors, listening skills, problem solving skills, self-confidence, pride in achievement, perseverance, commitment, team work, and much more.

Benefits of the Arts

Mind

The mind becomes sharpened through music study, practice, and performance. Learning about music requires concentration and focus. When children are asked to analyze, compare and contrast sounds, they are actively engaged in problem-solving experiences. While experiencing music, children are developing fun mental discipline through mental exercises that are different from classroom activities, academic studies, and even video games. Research has proven that studying music will allow the individual to gain mental acuity, a clear and brilliant mind to create.

Body

The body develops physical discipline through music study. Learning to play an instrument enhances fine motor co-ordination. There are health benefits for singing. There is a direct relation to the immune system, breathing, adopting good posture, improved mood, and stress.

Spirit

Creating music cultivates the individual's inner being. Music initiates self-expressions. Through the arts, the following tendencies are reduced:

- ◆ Behavior Issues
- ◆ Depression
- ◆ Suicide
- ◆ Crime
- ◆ Violence

Programs

After School Arts Program (Grades Pre-K—8)

Students can participate in class instruction in general music, piano, vocal ensemble, and reader's theatre.

Inclusive Package: \$100 (Registration & Materials)
